Clinical Sports Nutrition is a complete practical and clinical reference that provides state-of-the-art sports nutrition information. Each chapter contains specific reviews followed by practice tips. Contributions come from the leading academics, physicians and sports dieticians in Australia, Canada, the United States, the United Kingdom and Finland. The fourth edition has been substantially revised. In particular, it provides valuable new information on the female athlete triad; the 2005 ACSM/IOC position statement; exercise and the immune system; antioxidants and the athlete; food services for athletes, and nutrition for travel.

Louise Burke has been the Head of the Department of Sports Nutrition at the Australian Institute of Sport since 1990 and has nearly 30 years’ experience in counseling and educating athletes. In 2009 she received a Citation Award from the American College of Sports Medicine and Membership of the Order of Australia (OAM) from the Australian Government in recognition of her work in sports nutrition.

Vicki Deakin is an Associate Professor and Head of Nutrition and Dietetics at the University of Canberra, where she initiated the undergraduate and postgraduate courses in Nutrition and Dietetics and Sports Nutrition. Her involvement with elite athletes dates back to her initiation of the nutrition services at the Australian Institute of Sport in 1985.
CLINICAL CASES IN GENERAL MEDICINE 3E

**AUSTRALIAN AUTHOR**

Clinical Cases in General Medicine 3e, formerly known as Pocket Guide to Internship: Common Clinical Cases is the latest addition to the Clinical Cases collection. This edition has over 40 cases showcasing a comprehensive range of common scenarios encountered in emergency departments and hospital wards.

**Features**

- All cases have been revised and updated.
- Cases are presented as they would occur in the clinical setting and follow a step-by-step process of diagnosis and management.
- Problem-based learning scenarios encourage junior doctors to use the skills that they will need in daily practice.

**What’s New?**

- Seven new case studies including hypothyroidism, urinary tract symptoms and hypotension.
- Multiple choice self-assessment questions for Clinical Cases in General Medicine 3e are now available in an app for both smart phones and tablets from the Apple App Store and Google Play.

**Dr Sanjaya Senanayake**, Infectious diseases physician and Director of Hospital in the Home at Canberra Hospital. He is also a Senior Lecturer at the Australian National University Medical School.
KATZUNG & TREVOR'S PHARMACOLOGY EXAMINATION AND BOARD REVIEW, 11TH EDITION
Anthony Trevor, Bertram Katzung, Marieke Knuidering-Hall

Excel on medical pharmacology course exams and the boards with the help of the world’s bestselling pharmacology review book!

More than 800 Q&A

From the authors of pharmacology’s most trusted textbook, Katzung & Trevor’s Basic & Clinical Pharmacology, this authoritative resource delivers a clear, concise review of fundamental concepts backed by more than 800 review questions and answers. The chapter-based approach facilitates use with course notes or larger texts.

Valuable learning aids include:

- Short discussion of the major concepts that underlie basic principles or specific drug groups in every chapter
- Explanatory figures and tables (many in full color)
- Review questions followed by answers and explanations
- Overview diagrams visually organize drug groups and concepts
- A list of high-yield terms and definitions you need to know
- Skill Keeper Questions prompt you to review previous material to understand links between related topics
- Summary tables that list the important drugs and include key information about their mechanisms of action and effects, clinical uses, pharmacokinetics, drug interactions, and toxicities
- Two comprehensive 100-question examinations followed by the answer keys and explanations for the correct answers

Bertram G. Katzung, MD, PhD Professor Emeritus
Department of Cellular and Molecular Pharmacology, University of California, San Francisco.

Anthony Trevor, PhD Professor Emeritus of Pharmacology and Toxicology, Department of Cellular & Molecular Pharmacology, University of California, San Francisco.

Marieke Knuidering, PhD Associate Professor, Cellular Molecular Pharmacy, University of California, San Francisco.
COLOR ATLAS AND SYNOPSIS OF CONGENITAL CARDIOLOGY
Curt Daniels, Ali Zaidi

Interpret, diagnose, and treat with this case-based atlas of congenital heart disease

Color Atlas and Synopsis of Adult Congenital Heart Disease does more than help you interpret imaging studies of congenital heart disease – it also provides evidence-based guidance on the diagnosis and management of patients undergoing these tests.

Presented in a concise, easy-to-read design that is perfect for busy clinicians and intended for family practitioners, internists, pediatricians and general cardiologists, this unique combination text and atlas features more than 275 illustrations, including 140 color photographs, and includes coverage of defects most commonly seen in adult congenital cardiology. Using clinical cases, imaging studies, and pathology specimens, the book provides a succinct overview of the anatomy, physiology, clinical presentation, common complications, treatment options, and long term outcomes for adults with congenital heart disease.

RADIOLOGY CASE REVIEW SERIES: BRAIN IMAGING

Chang Ho, Rocky Saenz

200 interactive brain imaging cases deliver the best board review possible!

Part of McGraw-Hill’s Radiology Case Review Series, this unique resource challenges you to look at a group of images, determine the diagnosis, answer related questions, and gauge your knowledge by reviewing the answer. It all adds up to the best review of brain imaging imaging available—one that’s ideal for certification or recertification, or as an incomparable clinical refresher.

Distinguished by a cohesive 2-page design, each volume in this series is filled with cases, annotated images, questions & answers, pearls, and relevant literature references that will efficiently prepare you for virtually any exam topic. Radiology and neurology residents and fellows, medical students, radiologists, and physicians who want to increase their knowledge of brain imaging will find this book to be an invaluable study partner.

Roland Talanow, MD, PhD is affiliated with the Department of Radiology, Cleveland Clinic.
Score your highest on the EMT-Basic exam with this rigorous, all-in-one study guide.

If you want to ace the EMT-Basic exam, there is no better study partner than McGraw-Hill Education’s EMT-Basic review book. This indispensable study guide helps you think through pre-hospital medicine while covering every topic you must know on exam day.

Each chapter begins with a clinical scenario followed by a bulleted overview of key topics and summarized by retention-enhancing Q&A at the end of every chapter. You’ll also get valuable exam preparation tips, the do’s and don’ts of answering multiple-choice questions, and clinical pearls. An online question bank allows you to choose your questions by topic and hone in on your strengths and weaknesses to prepare you for exam day. McGraw-Hill Education’s EMT-Basic has everything you need to boost your confidence – and your test score. Highlights Include:

- High-yield outline format bolstered by Q&A, clinical scenarios, and easy-to-remember bulleted study material
- A 150-question practice exam at the end of the book
- Online question bank with 150 questions available at www.mcgrawhillemt.com
